For Parents

All of the Sylvania Families products have five characteristics which help to educate children whilst enjoying the toys.

Characteristics and Educational Role

Developing motor skills

Children will learn how to perform tasks in their daily life such as cleaning by posing the figures to carry out the actions needed to complete the task.

Imitating the daily life of adults

By playing with the animal figures and mimicking the behaviour of human beings, the products bring familiar surroundings to life. Children will be naturally inspired to imitate their own household and professional jobs they might want to do when they grow up.

Fostering interpersonal communication skills

Children will develop their communication skills and learn to care for others by exploring a variety of play patterns where they can identify with the characters they play with.

Stimulating interest in education and art and deepening curiosity

The detailed design of the figures, the life-like features of the dollhouses with the intricately designed furniture, the high quality of the toys are perfect in every detail. The products will stimulate the children's interest in education and art fostering an appreciation of beauty.

Fostering creativity and imagination

With an entire world to play with, children's imagination will have no limits. By combining buildings and decorating them with the furniture of their choice, they will develop their sense of space and readiness.
